

Big Recap!

Justin Post

What do we want to be able to do?

Data Science!

- Read in raw data and manipulate it
 - Combine data sources
 - Summarize data to glean insights
 - Apply common analysis methods
 - Communicate Effectively
- Git/GitHub/R Projects
 - Quarto
 - BaseR Data Structures
 - Control Flow
 - Writing Functions
 - Tidyverse
 - Reading in Data
 - Manipulating Data/SQL basics
 - EDA

Where To Now?!?

- Look at other really useful R related programming techniques
- Learn R Shiny
- Get the basics of Predictive Modeling & Machine Learning
- Understand how containerization can be useful and how to do it at a basic level
